ANATOMICAL CHARTS

The Erler-Zimmer charts make anatomy clear and understandable for everyone. The graphics have the medical and graphic level of an anatomy atlas and also offer the opportunity to learn the medical terms in German, Latin and English.

But the medical charts are not only a first class learning aid, as a decorative object they also visually enhance any practice, clinic or doctor's room. Whether as inexpensive paper charts in 50x70cm or as a high-quality plastic version with fixed metal edging and in the premium format 70x100cm, Erler-Zimmer Charts are always the best choice.
